KITCHENS

Auto-cut paper towel dispenser is highly versatile and can be installed in virtually any setting. Commercial & Office, Industrial & Operations, Healthcare & Fitness, Food Service & Hospitality, Education & Public Spaces.

WHY CHOOSE AUTO-CUT?

Smart Washrooms. Sustainable Savings. Introducing the **Auto-Cut Touch-Free Paper Towel Dispenser**—the commercial solution designed to protect the environment and your bottom line.

PROVEN REDUCTIONS

- ✓ **Up to 40% Less Waste:** Our customers see up to a 40% reduction in paper waste when switching from other paper towel dispensers. Smart, controlled dispensing limits sheet length to stop paper hoarding.
- ✓ **Smaller Carbon Footprint:** High-density rolls pack more sheets into fewer shipments, reducing transport emissions.

ECO-FRIENDLY CREDENTIALS

- ✓ **FSC Certified:** Every sheet comes from responsibly harvested forests, protecting old-growth timber and biodiversity.
- ✓ **Smarter Design:** Pushing the limits of sustainable hygiene without compromising on quality or performance.

ULTIMATE HYGIENE

- ✓ **100% Touchless:** Eliminates cross-contamination for a cleaner, safer and more sanitary washroom environment.
- ✓ **Sleek Protective Body:** A wall-mounted, space-saving design that seamlessly integrates into any modern public space.

100% BATTERY-FREE & HASSLE-FREE

- ✓ **Reduces Toxic Waste:** Batteries contain heavy metals and toxic chemicals. By eliminating them, you keep hazardous electronic waste out of landfills.
- ✓ **Always Ready:** Mechanical auto-cut dispensers rely on the physical pull of the user to slice and feed the next towel. They work 100% of the time.
- ✓ **No Sensor Lag:** There is no delay waiting for an electronic sensor to register a hand motion, which speeds up washroom traffic during peak hours.

ALL-INCLUSIVE SERVICE

- ✓ **Free Installation & Maintenance:** We don't just deliver, we manage. Our professional service team will install, service and maintain your dispensers—ensuring peak performance and the highest hygiene standards for your washrooms.

Upgrade your washrooms today. Contact us for a free consultation.
